**Tom Rutkowski** WOW!!! For a group that NAILS it on any Journey tune....and I mean "NAILS IT".....they showed such diversity from Foreigner....to Boston.....with a ton of Journey in between.....WOW!!! The musicality was spot on....and the vocals....harmonies and leads were FANTASTIC!!! And all this in between raindrops. You know the band is good when you have people dancin' in the street even when it's rainin'. Not one person left the venue while these guys were playing, even through the rain. Says a lot about good music to me. Can't wait to catch these guys again this summer.
